

Tell Fort Wayne to Buy American!

Help fight for good jobs in our community by joining us to support our Buy American resolution. The resolution calls on state and local governments to use federal economic recovery funds on U.S.-made goods and services.

The Fort Wayne City Council will vote on our Buy American resolution in April. Councilwoman Karen Goldner will be introducing the resolution into the council for a vote. We need your help to tell the Fort Wayne City Council that this resolution is important to stimulate our economy. Call or email these council members and tell them to support the Buy American resolution!
